

Wine List

Our goal with our wine list is to offer a full palette of the world of wine. While we feature many local selections, we feel that wine, like food, is one of life's great pleasures. There is no good reason to limit yourself to just two counties!

We focus as much as possible on organic, bio-dynamic, and sustainable wines because we feel this is how the best wines have always been made. Please enjoy our list as we search far and wide to bring you a diverse international lineup of wines. T.N.

Planet Riesling

We are so excited about Riesling that we have devoted an entire page of our wine list to it. We think Riesling is the best white wine on earth. Get over your preconceived notions, Riesling ranges from painfully dry to semi sweet to unctuous, but always a long persistent acidity balancing the wine perfectly. Embrace the fragrance and multitude of fruit flavors every region interprets uniquely.

Watch this space as we bring in more selections, the wines are listed in order from drier to sweeter, but always food friendly.

We have included a bin number for the linguistically challenged.
